

4D Training

Yacht Introduction

Who would benefit?

This course has been designed for those in underwriting, claims or broking, who require a basic understanding of yacht insurance

Objective

To give an overview of the types of risks and the cover provided by the yacht insurance market.

Content

- Nature of the risks, including law applicable to private recreational vessels both in UK and internationally
- Marine insurance law and how it is applied to personal lines policyholders
- Underwriting considerations
- Main policy forms and contrasts between them
- Claims handling

Duration

One day

Pre-requisites

No prior knowledge of marine insurance required but a basic understanding of general insurance concepts would be helpful.
